The basics:

- To make a video, you must have a YouTube/Google account. To set that up, see the instructions at www.youtube.com/create_account. If you have a Google account (like Gmail) use that to sign into YouTube (OR) if you can't figure out how to create an account and want to participate email info@migrantjustice.net or call 802-658-6770
- The most important thing is to be heard. Go somewhere quiet.
- Make sure the light is on your face, not behind it. In other words, don't sit in front of a bright window or light.
- If you have or can borrow a smartphone, this works just fine! Many digital cameras have video functions too. Upload the video onto a computer and then onto YouTube.
- To make sure that people can find your video on YouTube, use your name, then "Stop Danilo's deportation" in the title. So, for example name the video "Carlos Diaz: Stop Danilo's Deportation"" Type in these tags to help people find your video: "Danilo Lopez" "Vermont," and "Migrant Justice", "immigration reform"
- If you are having trouble taking these steps, don't worry! Contact info@migrantjustice.net or 802-658-6770 for help; SEND US YOUR VIDEO LINK!!!

Your video will be most powerful if it comes from the heart, but these talking points help:

Talking points:

- State your name, where you live, and how you came to know Danilo (EVEN IF YOU JUST HAVE WITNESSED HIS WORK FROM AFAR AND SEEN HIS CONTRIBUTIONS)
- Talk about why Danilo is indispensable to our community and movement
- If you can share a story when you saw him in action that would be awesome
- Make it personal! Danilo has touched so many lives. Mentioning an experience – as a friend, neighbor, compañero – can make all the difference.
- Conclude each video with the following message:

DON'T DEPORT DANILO. WE NEED A PATH TO CITIZENSHIP AND HUMAN RIGHTS NOW FOR OUR 11 MILLION FRIENDS, FAMILY AND NEIGHBORS! STOP TEARING OUR COMMUNITIES AND FAMILIES APART.
